**THE COMMERCIAL VIEW OF IT.**  
A rooster, a rooster, a rich red rooster,  
Upon my lady's breast,  
Its petals large, its colors deep,  
Its stem with green leaves dressed.  
'Tis rich with beauty, in color rare—  
Oh, what a combination!  
The same has she whose smile on me I see in adoration.  
But the rose, the rose, the rich red rose,  
Which grows on her gown of gray  
Is very scarce this time of year—  
It cost my last week's pay.

Our friends the enemy had a speechifying Saturday evening at Dietrich's Park. In fact they've had quite a lot of speechifying lately, which is pretty good evidence that they are uneasy. One thing argued in favor of the new Constitution, when the people of Kentucky were debating on the advisability of adopting the crazy quilt, was that it would protect people who didn't know any better from voting appropriations to proposed railroads. After all the bluster and blow over that inhibition clause here comes Morgan county, which, at the November election, will vote on a proposition to subscribe \$25,000 in aid of a road to be constructed through that county. The prohibitory clause against such things will be avoided by appropriating the money for the purpose of building bridges.

At Bennett's Mill, Greenup county, Edward Perry was found in Tygart creek drowned. About two weeks ago, while Perry was attending church at Plum Fork, he was called from the church by two strangers, and that was the last time he has been seen in the neighborhood, and continued search has been in progress ever since. Saturday as Henry Winters was floating down the creek in a boat he found Perry's body hanging in the forks of a tree, where it had lodged. There was a large rock tied to the body, and the supposition is that he was murdered and thrown into the creek in order to conceal the crime.

## TREASURER OF NEW YORK STATE.

He Gives More Evidence of the Unequalled Worth of Paine's Celery Compound.

Mr. Colvin Had Suffered From a Nervous Complaint With Which Many Are Afflicted—He Tried the Remedy That Makes People Well, and His Experience Was Like That of Thousands of Others.

Mr. Colvin, the Treasurer of New York State, holds the highest position of purely financial responsibility to which it is possible for a citizen of this country to be elected.

In many respects the office is second only to that of the great United States official, whose Secretary himself has just publicly recommended Paine's Celery Compound.

Now there came a letter of the same character from Treasurer Colvin.

In the history of the most remarkable remedy this century has yet seen the fact that the ablest and most influential persons in the country and the most progressive physicians were the first to perceive the extraordinary worth of Paine's Celery Compound is very significant.

The fact that today this remedy is more widely recommended by grateful people in every walk of life than all the other remedies in the world together is not astonishing. It makes people well!

There have appeared recently published testimonials of Mr. Carlisle's Private Secretary, of ex-Minister to Austria, Francis, of Mayor M. J. H. of Montreal, of Miss Mabel Jenness, of President Cook of the National Teachers' Association, of General Macaulay and of scores of other equally responsible women and men.

The "plain people" by thousands in every state in the Union have testified to the merits of the Compound.

Hon. Addison B. Colvin, whose likeness is given above, who was elected Treasurer of New York State last fall, was born in 1858 in Glen Falls, N. Y., where he was educated in the Public Schools, and where he has since resided. His successful career is known to all well-informed persons.

W. J. Colvin, the proprietors of Paine's Celery Compound on July 12th last, well would make them strong and well.

To quickly fill the shrunken arteries and veins with ruddy blood and to refresh the exhausted nerves is the task that Paine's Celery Compound at once sets at work to accomplish. It takes but a short time with a careful employment of this great nerve food to call a halt to

in fact, since having taken the Compound I have not been called upon to use any other remedy for that difficulty. Very sincerely yours, A. B. COLVIN, "State Treasurer."

Every hard working person should heed this truth, that the most crucial taskmaster in the world is a man's self when he is ambitious and, moreover, successful.

No eight-hour or ten-hour laws have ever been devised to protect such hard-worked, overworked men against themselves.

Very many are tied to their office desks, bent over books and papers for hours, in utter defiance of the simplest requirements of health. The steady drain on the store of nervous energy at length shows itself in repeated headaches, neuralgia, twinges, rheumatic pains, unrefreshing sleep and a loss of spirits and strength.

In all these cases there is urgent need of restoring the nervous vigor that has been heedlessly squandered. Just why the great body of really capable physicians have had the greatest confidence from the first in ordering Paine's Celery Compound in these cases of reduced nerve vigor and bodily strength is not only because of the immediate good results that follow, but because this great modern remedy is prepared from the formula of the ablest reputed scientist and practitioner in medicine, Professor Edward E. Phelps, M. D. LL. D., of Dartmouth College.

There are hundreds of men and women successful in their work for every one who is successful in keeping well. In many instances a fraction of the care and earnestness with which they attend to their business if devoted to getting well would make them strong and well.

To quickly fill the shrunken arteries and veins with ruddy blood and to refresh the exhausted nerves is the task that Paine's Celery Compound at once sets at work to accomplish. It takes but a short time with a careful employment of this great nerve food to call a halt to

wasting diseases and to disorders of the important organs of the body, to dyspepsia, liver, kidney and heart difficulties and to nervous weakness.

It is, perhaps, vague to most persons minds just what "regulating and strengthening the nerves" really means.

No parts of the body undergo such rapid changes as the nervous tissues. After exertion the brain and nerve demand the promptest repair possible. The proper material must be speedily and richly brought by the blood to insure the healthy working of these delicate parts. It is when the vigor of the body is so reduced that the nervous tissues cannot extract those needed elements from the blood, and when the pale, watery blood can furnish but a scanty supply of building material, that the strength fails, sleep becomes broken and unfreshening, depression seizes the mind and a general feeling of ill-being is the sure forerunner of the breakdown of some special organ, liver, kidneys, heart, brain or stomach.

Paine's Celery Compound regulates and strengthens the nerves, which govern and give tone to every part of the body.

The thinnest branchings of the nerves everywhere accompany and work in harmony with the marvelous network of blood vessels, so that wherever a pin prick starts a drop of blood, a sharp pain tells that a nerve has also suffered. Paine's Celery Compound stores the blood vessels even to their minutest capillaries with fresh blood, full of life, and builds up the worn-down organism, by bathing them, to their utmost filaments, in the rich, nourishing stream.

Tired mortals, worn out by the ceaseless care of large families, and fathers worried by business and responsibility, find just the refreshment to the nerves that they need so much. Overworked brainworkers, teachers, scholars, young girls in stores and offices, regain the sturdy appearance of health in a short time by using this powerful nourishing agent, Paine's Celery Compound.

Colonel L. H. Williams of Ripley is growing as a probable candidate for Governor of Ohio.

Hettie Bernard Chase at the Opera-house tomorrow evening in a wonderful clever farce-comedy. She will be supported by a splendid company, and every thing will be first-class.

Mr. J. I. Curtis, Assistant State Secretary of the Young Men's Christian Association, died of typhoid fever at Lexington last week.

It is stated that over 900,000 logs are now in the Kentucky river awaiting the next rise. This is said to be the largest number on record for this time of year.

The Governor has offered \$150 reward for the capture of William Johnson, charged with murder in Illinois county.

All Sisters of Friendship Lodge No. 43, D. of L., are requested to meet at the residence of Sister Schwartz this evening at 7 o'clock. Business of importance. EMMA LUKAN, Secretary.

## ROBBERY.

### The Cook Gang Hold Up a Missouri Pacific Train.

Express Messenger Refused to Open the Door of His Car at First.

But a Fusillade of Bullets Through the Car Changed His Mind—One Safe was Believed of About \$1,000—Passengers Also Robbed.

ST. SMITH, Ark., Oct. 22.—At 10 o'clock Saturday night the south-bound Kansas City and Memphis express, on the Missouri Pacific, was held up and robbed by the Cook gang of outlaws at Correta, a small station between Wagner and Ft. Gibson. When the train was within a few feet of the switch, a man darted out from behind the embankment and threw the switch, bringing the train into the siding. It was standing on the siding, and was brought to a sudden stop. The moment the train stopped the bandits began firing into the forward cars.

There were eight or ten men in the gang, who distributed their rifles along the side of the train. They then mounted the engine and forced the engineer and fireman to open the door. They were marched to the express car, and threatened with instant death unless they compelled the express messenger to open the door. The messenger refused to open at first, but as the robbers kept firing a fusillade of bullets through the side of the car he finally complied with the demands of the robbers and the engineer and fireman, and threw open the door.

Two robbers immediately entered and seized all the money in the local safe. They commanded the messenger to open the door of the car, when he explained that the combination was only known at the main office, at the end of the line, they left the car. Meanwhile the other robbers had been going through the train demanding the money and valuables of the passengers. Before they had completed their work, the freight train which had followed the passenger closely out of Wagner drew in sight, and the robbers followed it out of the train. The gang instantly remounted their horses, and firing a parting volley at the train, fled in a northerly direction. The robbers were at work inside the car their confederates on the outside kept up a continuous firing, which had the desired effect in scaring the passengers and train men and preventing resistance.

Two men were wounded, one of whom John Mahara, advance agent of a mine-surveying company, may die. He was wounded in the forehead and taken back to Wagner on the freight train for medical attendance. Wm. Brown, of Van Buren, Ark., was grazed in the cheek by a bullet. Detectives Dickson and Helms, of the Missouri Pacific special force, were among those who were robbed. The entire train was riddled with bullets, every window being broken.

Twenty deputy marshals from Little Rock passed through here Sunday morning on their way to the scene of the robbery. Express officials here say their loss will not be over \$1,000.
